

FIND THE **BEST TRAINING** SOLUTION FOR YOU

CLASSROOM

We run classroom training courses at key regional locations across the UK. All of our trainers have years of industry experience and we supply delegates with high quality course material to aid them after the course.

If you have a number of delegates to train, or require more flexible dates, we can also provide classroom training in-house at your company's premises.

COVID procedures at all training locations to keep both delegates and trainers safe

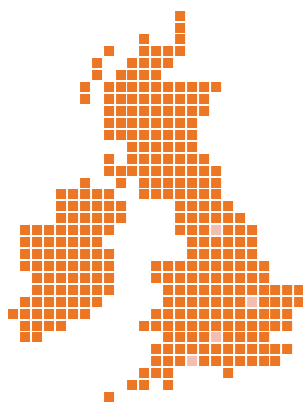

We are still following our Covid 19 procedures (see our website), ensuring clean and disinfected venues, sanitising stations and social distancing measures.

Limited class sizes for a personalised experience in a safe environment

We limit our class sizes to promote delegate engagement. This also ensures delegates can socially distance so they can experience classroom training in a safe environment.

Training at various locations around the UK every month

We have scheduled courses every month at key regional locations throughout the UK. This includes Heathrow, Stansted, Manchester, Southampton and more. Please do check our website as we regularly update it, and also sometimes add additional venues to meet demand.

LIVE ONLINE

Our online training courses are live and instructor led by industry experts. Our virtual classrooms are easy to access, easy to use and emulate the classroom environment.

Live online training is also available in house. This is where we provide an exclusive virtual classroom just for your delegates.

Flexible training that works around you

Our online training can be completed from the comfort of your home or office. We provide hard copies of our high quality course material and provide loan technical manuals for which we arrange delivery and collection.

Limited class size and bitesize modules to make the training more digestible

We deliver in bite sized half day sessions so the course content is easier to absorb. Like our classroom courses, we limit our online class sizes so that each delegate has sufficient interaction time with the trainer.

Test sessions and technical support available

We have a technical adviser assigned to each course who is available to contact throughout the training.

In addition to this, we run test sessions on Tuesday and Thursday every week so delegates have an opportunity to log on prior to the training.

ALL YOU WILL NEED

There are **NO DOWNLOAD REQUIREMENTS**, all you will need is a laptop/computer with internet access and the following items:

CAMERA

MICROPHONE
